

## Flowserve Q2 2014 Earnings Conference Call

## July 24, 2014

## **Special Note**

Safe Harbor Statement: This presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "forecasts," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, earnings forecasts, statements relating to our business strategy and statements of expectations, beliefs, future plans and strategies and anticipated developments concerning our industry, business, operations and financial performance and condition.

The forward-looking statements included in this presentation are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ materially from what is forecast in such forward-looking statements, and include, without limitation, the following: a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins; changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog; our dependence on our customers' ability to make required capital investment and maintenance expenditures; risks associated with cost overruns on fixed-fee projects and in taking customer orders for large complex custom engineered products; the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries; the adverse impact of volatile raw materials prices on our products and operating margins; economic, political and other risks associated with our international operations, including military actions or trade embargoes that could affect customer markets, particularly Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/re-export control, foreign corrupt practice laws, economic sanctions and import laws and regulations; increased aging and slower collections of receivables, particularly in Latin America and other emerging markets; our exposure to fluctuations in foreign currency exchange rates, including in hyperinflationary countries such as Venezuela; our furnishing of products and services to nuclear power plant facilities and other critical processes; potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims; a foreign government investigation regarding our participation in the United Nations Oil-for-Food Program; expectations regarding acquisitions and the integration of acquired businesses; our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits; the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets; our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations; the highly competitive nature of the markets in which we operate; environmental compliance costs and liabilities; potential work stoppages and other labor matters; our inability to protect our intellectual property in the U.S., as well as in foreign countries; obligations under our defined benefit pension plans; and other factors described from time to time in our filings with the Securities and Exchange Commission.

All forward-looking statements included in this presentation are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

## **Q2 2014 Financial Highlights**

- Reported EPS\* of \$0.90, up 7.1%, including \$0.03 per share of negative currency impact below-the-line, severance and realignment expenses
- Strong bookings of \$1.38 billion, up 12.6% versus prior year, or 12.8% on a constant currency basis
  - Original equipment bookings increased 17.7% over prior year, 25.9% sequentially
  - Broad based strength across all regions and end markets, particularly the oil and gas industry
  - Record aftermarket bookings of \$532 million, an increase of 5.3% and the third consecutive quarter of over \$500 million in bookings
- Gross margin improvement across all segments drove 110 basis point increase to 35.1%
- Operating margin of 15.9%, increased 110 basis points versus prior year

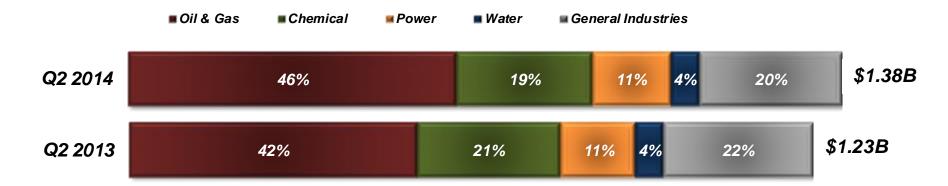

## **Business Outlook**

- Accelerating energy markets support expected project activity and growth
- Continued internal focus and success of One Flowserve strategies driving strong, consistent execution
  - Proven capabilities to meet and exceed customer requirements have us well positioned to capitalize on ramping large project cycle
  - Solid platform supports inorganic growth opportunities, lowering integration risk
- Diverse end-market and geographic exposures continue to dampen risk and volatility and provide opportunities across our global energy markets
- Disciplined focus on return on assets drives capital allocation, portfolio optimization and return for shareholders
- Backlog increased \$292.9 million, or 11.5% versus Q4 2013 to \$2.85 billion
  supports anticipated 2014 full year targets

## Q2 2014 Bookings & Industry Outlook

### OIL & GAS

✓ Market conditions support price levels that encourage investment; ongoing signs of increased discipline in some upstream capital expenditures

✓ Geopolitical conflicts in key energy producing regions cause uncertainties; potential to drive capital deployment toward stable countries

✓ New refining capacity additions in the Middle East and other developing economies; clean fuels initiatives also prompt spending

### **POWER**

- ✓ Coal-fired power investment in Europe driven by favorable economics and the region's partial retreat away from nuclear power generation
- ✓ China accounts for the largest share of new nuclear opportunities; US nuclear fleet may benefit from newly proposed carbon emissions policy
- ✓ The Middle East & North Africa planning to develop significant solar power capacity to diversify its power mix

### **CHEMICAL**

- ✓ Strong North American market conditions for petrochemicals and derivatives given low-cost natural gas feedstock
- ✓ Majority of new chemical capacity still being developed in BRIC countries and other developing economies

### **GENERAL INDUSTRIES**

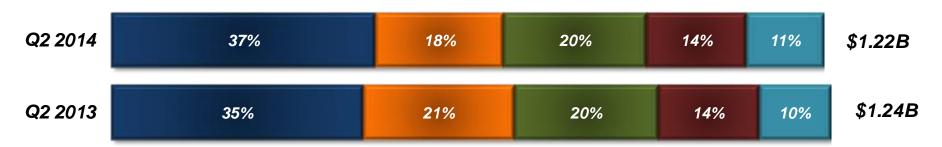

- ✓ Mining down cycle continues; pockets of opportunity exist and fundamental growth drivers persist for the long-term
- ✓ Good levels of business activity through distribution channels to general industries

Sources: GlobalData, Industrial Info Resources, American Chemistry Council, Global Water Intelligence, ITR Economics, IMF, Flowserve internal data

## Q2 2014 Sales & Regional Outlook

North America Europe Asia-Pacific Middle East & Africa Latin America

#### NORTH AMERICA

- ✓ Continued focus on North American unconventional resources with opportunities upstream, midstream and downstream
- ✓ Strong momentum in petrochemicals with additional project announcements, EPC awards and equipment orders
- ✓ Power market in flux due to pending environmental regulations and changing economics of power generation technologies

### **EUROPE**

- ✓ Western Europe turning the corner from recession to recovery, but political volatility in Eastern Europe and Russia
- ✓ Refining and chemical in Western Europe squeezed by the Middle East, US and Asia Pacific capacity additions

### MIDDLE EAST

- ✓ Numerous opportunities in oil & gas upstream and downstream, particularly in Persian Gulf, but conflict in Iraq a concern
- ✓ Ongoing activity in power generation, desalination and water infrastructure to support economic development in the region

### **ASIA-PACIFIC**

- ✓ Growth opportunities throughout energy and industrial markets given the region's economic and environmental development goals
- ✓ Over half of global chemical capacity additions planned for China, India and other Asia Pacific countries over the next five years

### LATIN AMERICA

- ✓ Both Brazil deep water oil & gas and Mexico's proposed energy reforms promising for growth in the region
- ✓ Latin America a key mining market, particularly for copper; industry spending on projects restrained

Strong original equipment orders as cycle begins to accelerate

- \* Constant FX represents the year over year variance assuming 2014 results at 2013 FX rates
- \*\* Gross bookings and sales do not include interdivision eliminations

## **Engineered Product Division Q2 Overview**

- Bookings increased 22.7%, or 25.0% on a constant currency basis, on strong original equipment
  - Growth driven by oil and gas and power industries, partially offset by general industries
  - Strong growth in all regions with the exception of Asia Pacific, which was relatively flat
- Sales decreased 2.5%, or 1.1% on a constant currency basis, due primarily to decreased sales into Europe, Latin America and Asia Pacific, partially offset by increased sales into North America and the Middle East
- Gross margin increased 90 basis points to 34.5%, primarily due to a mix shift to aftermarket, operational execution improvements and disciplined selectivity of customer bookings
- Operating margin increased 130 basis points to 17.0%

Strong bookings reflect increased focus on growth while operational improvements continue

\* Constant FX represents the year over year variance assuming 2014 results at 2013 FX rates

\*\* Gross bookings and sales do not include interdivision eliminations

## **Industrial Product Division Q2 Overview**

- Bookings increased 18.6%, or 16.7% on a constant currency basis, on strong original equipment activity
  - Growth driven primarily by general and oil and gas industries
  - Regional strength into Asia Pacific, Europe and North America was partially offset by bookings into the Middle East
- Sales were essentially flat versus prior year, with increased sales into Europe, offset by decreased sales into the Middle East and North America
- Gross margin increased 200 basis points to 28.0%, primarily attributable to a mix shift to aftermarket and lower manufacturing costs resulting from execution of operational improvements and disciplined selectivity of customer bookings
- Operating margin increased 50 bps to 13.3%, primarily due to gross margin improvement, partially offset in part by increased R&D costs

# Accelerating project business drove strong EPD/IPD bookings in Q2, should impact later cycle valve products in the near term

\* Constant FX represents the year over year variance assuming 2014 results at 2013 FX rates

\*\* Gross bookings and sales do not include interdivision eliminations

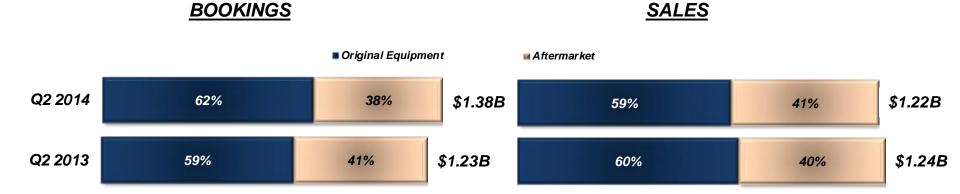

(1) Q2 2014 vs. Q2 2013 compares include approximately 3% of negative impact from the sale of the Naval business in Q1 2014

## Flow Control Division Q2 Overview

- Bookings decreased 5.5%, or 7.3% on a constant currency basis, including approximately 3% of negative impact from the sale of our Naval business in the first quarter of 2014
  - Decreased bookings in oil and gas and general industries were partially offset by increased chemical bookings
  - Decreased bookings into Latin America, North America and Asia Pacific, were partially offset by activity in the Middle East and Europe
- Sales decreased 1.2%, or 2.9% on a constant currency basis, including approximately 3% of negative impact from the sale of our Naval business in the first quarter of 2014
  - Decreased sales into Europe (primarily Naval) and Asia Pacific were partially offset by increased sales into Latin America, North America and Africa
- Gross margin increased 180 basis points to 37.6%, primarily due to continued traction on low cost sourcing, cost control initiatives and favorable product line mix
- Operating margin increased 180 basis points to 19.5%, primarily on increased gross profit

## Q2 2014 Consolidated Bookings & Sales

## **Bookings**

- Bookings in Q2 2014 increased 12.6%, or 12.8% on a constant currency basis, driven primarily by strength in all industries, particularly oil and gas
  - > Original equipment bookings increased 17.7% year-over-year, 25.9% sequentially
  - > Aftermarket bookings increased 5.3% year-over-year, 2.9% sequentially

## <u>Sales</u>

Sales in Q2 2014 decreased 1.2%, or 1.5% on a constant currency basis, driven primarily by lower original equipment sales – Regionally, decreased sales into Europe were partially offset by increased sales into Latin American and North America

### **Accounts Receivable**

Accounts Receivable DSO at 85 days in Q2 2014, versus 78 days prior year Q2, primarily due to the impact of certain Latin American customers

> Targeted DSO in the mid 60s

### **Inventory**

Inventory turns were 2.7 times, versus 2.8 times prior year Q2

Driving towards inventory turns goal of 4.0x to 4.5x

## 2014 Outlook

### Cash Use Priorities in 2014

- Continue to execute on announced capital allocation policy
  - Continue policy of annually returning 40 50% of running 2-year average net earnings to shareholders
- Estimate capital expenditures to be \$130 \$140 million
- Scheduled debt principal reduction of \$40 million
- Estimate U.S. and non-U.S. pension fund contributions to be approximately \$30 \$35 million
- Other strategic opportunities, after disciplined analysis

### **Revenue Growth**

Expect revenue growth in the lower half of our initial 3 – 6% guidance range, excluding potential impact of acquisition or divestiture activity that may arise

## **Working Capital**

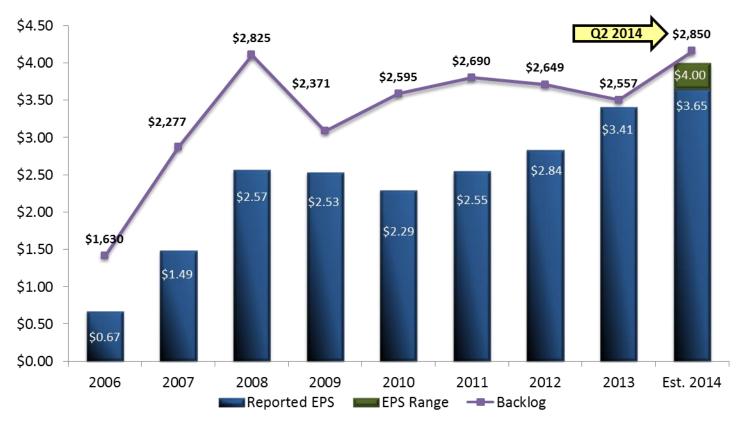

Execute on working capital initiatives to increase on-time delivery and improve DSO and inventory turns to targeted levels

## SG&A Cost Focus

 Continue expense-management culture as we target SG&A as a percent of sales of 18% while making strategic growth investments

## 2014 EPS Guidance

- Implied 2014 EPS growth of 7% 17% reflects earnings power on expected revenue growth of 3% 6% and continued progress on our operating margin improvement goal
- Similar to prior year, 2014 earnings will be second half weighted

## Reaffirm 2014 full year EPS target range of \$3.65 to \$4.00

\* EPS amounts for 2006 and 2007 have not been retrospectively adjusted to reflect the adoption of the two class method of calculating earnings per share under ASC 260, "Earnings Per Share" which was effective January 1, 2009. The impact of adoption was a decrease to EPS of \$0.01 for 2006 and \$0.02 for 2007.
