**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis of Presentation and Accounting Policies**

**Basis of Presentation**

The accompanying condensed consolidated balance sheet as of June 30, 2021, the related condensed consolidated statements of income and comprehensive income (loss) for the three and six months ended June 30, 2021 and 2020, the condensed consolidated statements of shareholders' equity for the three and six months ended June 30, 2021 and 2020 and the condensed consolidated statements of cash flows for the six months ended June 30, 2021 and 2020 of Flowserve Corporation are unaudited. In management's opinion, all adjustments comprising normal recurring adjustments necessary for fair statement of such condensed consolidated financial statements have been made. Where applicable, prior period information has been updated to conform to current year presentation.

The accompanying condensed consolidated financial statements and notes in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2021 ("Quarterly Report") are presented as permitted by Regulation S-X and do not contain certain information included in our annual financial statements and notes thereto. Accordingly, the accompanying condensed consolidated financial information should be read in conjunction with the audited consolidated financial statements presented in our Annual Report on Form 10-K for the year ended December 31, 2020 ("2020 Annual Report").

*Revision to Previously Reported Financial Information* - During the first quarter of 2021, as previously disclosed, we identified an accounting error involving foreign currency transactions beginning with the first quarter of 2020 through the year ended December 31, 2020. These adjustments increased retirement obligations and other liabilities by \$1.5 million, retained earnings by \$14.0 million and accumulated other comprehensive loss by \$15.5 million as of December 31, 2020.

In addition, as previously disclosed, during the third quarter of 2020, we identified accounting errors related to the recognition of a liability for unasserted asbestos claims. The adjustments primarily related to an incurred but not reported ("IBNR") liability associated with unasserted asbestos claims, but also included adjustments related to the associated receivables for expected insurance proceeds for asbestos settlement and defense costs from insurance coverage and the recognition as an expense the related legal fees that were previously estimated to be recoverable from insurance carriers for which coverage is not currently sufficient following the recognition of the IBNR for periods beginning with the year ended December 31, 2014 through the second quarter of 2020 and to correct certain other previously identified immaterial errors.

We have assessed the above described errors, individually and in the aggregate, and concluded they were not material to the period ended June 30, 2020 or any previous period. The June 30, 2020, balances, as presented herein, have been revised. Additionally, the remaining periods in 2020 will be revised the next time such financial statements are filed as applicable. Refer to Note 2 for a detailed discussion related to the impact of the revision as of and for the three and six months ended June 30, 2020 and the impact to future periods in 2020 which will be revised in future filings.

*Coronavirus Pandemic ("COVID-19") and Oil and Gas Market* - During the first six months of 2021, we continue to be challenged by macroeconomics and global economic impacts based on the disruption and uncertainties caused by COVID-19. As a result of the COVID-19 pandemic's effect on oil prices, many of our large customers reduced capital expenditures and budgets in 2020. To date, customer spending has yet to return to pre-pandemic levels.

The preparation of our condensed consolidated financial statements requires us to make estimates, judgments and assumptions that may affect the reported amounts of assets, liabilities, equity, revenues and expenses and related disclosure of contingent assets and liabilities. We evaluate our estimates, judgments and methodologies on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe are reasonable, the results of which form the basis for making judgments about the carrying values of assets, liabilities and equity and the amount of revenues and expenses. The full extent to which the COVID-19 pandemic directly or indirectly impacts our business, results of operations and financial condition, including sales, expenses, our allowance for expected credit losses, stock based compensation, the carrying value of our goodwill and other long-lived assets, financial assets, and valuation allowances for tax assets, will depend on future developments that are highly uncertain, including as a result of new information that may emerge concerning COVID-19 and the actions taken to contain it or treat it, as well as the economic impact on local, regional, national and international customers, suppliers and markets. We have made estimates of the impact of COVID-19 within our financial statements and there may be changes to those estimates in the near to mid-term as new information becomes available. Actual results may differ from these estimates.

## Accounting Developments

### *Pronouncements Implemented*

In January 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-01, "Investments—Equity Securities (Topic 321), Investments—Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815): Clarifying the Interactions between Topics 321, 323 and 815." The amendments of the ASU addresses accounting for the transition into and out of the equity method and measurement of certain purchased options and forward contracts to acquire investments. The ASU is effective for annual periods beginning after December 15, 2020 and the amendments should be applied retrospectively to all periods presented. The adoption of this ASU did not have an impact on our consolidated financial condition, results of operations or net cash flows.

In March of 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform (Topic 848): Facilitation of The Effects of Reference Rate Reform on Financial Reporting." The ASU provides guidance designed to enable the process for migrating away from reference rates such as the London Interbank Offered Rate ("LIBOR") and others to new reference rates. Further, the amendments of the ASU provides optional expedients and exceptions for applying U.S. GAAP to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. The amendments are effective as of March 12, 2020 through December 31, 2022 and may be applied to contract modifications and hedging relationships from the beginning of an interim period that includes or is subsequent to March 12, 2020. At this time, we do not have hedging relationships that reference LIBOR or another reference rate expected to be discontinued and therefore, have not applied the practical expedients and exceptions as required by the ASU. As referenced in Note 7 of this Quarterly Report, the Company's Senior Credit Facility agreement includes a transition clause in the event LIBOR is discontinued, as such, we do not expect the transition of LIBOR to have a material impact on our consolidated financial statements. We do not expect the application of these expedients and exceptions to have an impact on our consolidated financial condition and results of operations.

In October 2020, the FASB issued ASU No. 2020-10, "Codification Improvements: Amendments to the FASB Accounting Standards Codification." The amendments in this ASU do not change GAAP and, therefore, are not expected to result in a significant change in practice. Rather, the amendments are intended to improve codification guidance and disclosure requirements in Company's financial statements and notes to the financial statements. The amendments are effective for annual periods beginning after December 15, 2020 and the amendments should be applied retrospectively to all periods presented. The adoption of this ASU did not have an impact on our consolidated financial condition, results of operations or net cash flows.

## 2. Revision to Previously Reported Financial Information

During the first quarter of 2021, we identified an accounting error involving foreign currency transactions beginning with the first quarter of 2020 though the year ended December 31, 2020. These adjustments increased retirement obligations and other liabilities by \$1.5 million, retained earnings by \$14.0 million and accumulated other comprehensive loss by \$15.5 million as of December 31, 2020.

In the third quarter of 2020, we identified accounting errors related to the recognition of a liability for unasserted asbestos claims. The adjustments primarily relate to an IBNR associated with unasserted asbestos claims, but also include adjustments related to the associated receivables for expected insurance proceeds for asbestos settlement and defense costs from insurance coverage and the recognition as an expense the related legal fees that were previously estimated to be recoverable from insurance carriers for which coverage is not currently sufficient following the recognition of the IBNR and to correct certain other previously identified immaterial misstatements.

The following tables present the impact to the affected line items on our condensed consolidated financial statements for the periods indicated for the correction of the accounting error involving foreign currency transactions identified in the first quarter of 2021, the accounting errors related to the recognition of a liability for unasserted asbestos claims identified in the third quarter of 2020, and other immaterial misstatements previously identified:

Total liabilities and equity	\$ 4,755,702	\$ 22,676	\$ 4,778,378

(1) Adjustment relates to right-of-use ("ROU") asset and lease liability for an operating lease.

(2) Adjustment relates to the associated receivables for expected insurance proceeds for asbestos settlements and defense costs.

(3) Adjustment primarily relates to non-restructuring realignment charges associated with workforce reductions in our Realignment Programs ("2020 Realignment Program"). Refer to Note 17 for further discussion of this program.

(4) Adjustment relates to one of our sites for correction in contract position caused by errors in estimated costs under the over time revenue recognition model.

(5) Adjustment primarily relates to IBNR reserves associated with unasserted asbestos claims.

(6) The adjustments to retained earnings are the cumulative effect of the immaterial errors that were corrected in prior periods.

### 3. Revenue Recognition

The majority of our revenues relate to customer orders that typically contain a single commitment of goods or services which have lead times under a year. Longer lead time, more complex contracts with our customers typically have multiple commitments of goods and services, including any combination of designing, developing, manufacturing, modifying, installing and commissioning of flow management equipment and providing services and parts related to the performance of such products. Control transfers over time when the customer is able to direct the use of and obtain substantially all of the benefits of our work as we perform.

Our primary method for recognizing revenue over time is the percentage of completion ("POC") method. Revenue from products and services transferred to customers over time accounted for approximately 15% and 22% of total revenue for the three month period ended June 30, 2021 and 2020, respectively, and 16% and 22% for the six month period ended June 30, 2021 and 2020, respectively. If control does not transfer over time, then control transfers at a point in time. We recognize revenue at a point in time at the level of each performance obligation based on the evaluation of certain indicators of control transfer, such as title transfer, risk of loss transfer, customer acceptance and physical possession. Revenue from products and services transferred to customers at a point in time accounted for approximately 85% and 78% of total revenue for the three month period ended June 30, 2021 and 2020, respectively, and 84% and 78% for the six month period ended June 30, 2021 and 2020, respectively. Refer to Note 3 to our consolidated financial statements included in our 2020 Annual Report for a more comprehensive discussion of our policies and accounting practices of revenue recognition.

#### *Disaggregated Revenue*

We conduct our operations through two business segments based on the type of product and how we manage the business:

- Flowserve Pump Division ("FPD") designs and manufactures custom, highly-engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, auxiliary systems and replacement parts and related services; and
- Flow Control Division ("FCD") designs, manufactures and distributes a broad portfolio of engineered-to-order and configured-to-order isolation valves, control valves, valve automation products and related equipment.

Our revenue sources are derived from our original equipment manufacturing and our aftermarket sales and services. Our original equipment revenues are generally related to originally designed, manufactured, distributed and installed equipment that can range from pre-configured, short-cycle products to more customized, highly-engineered equipment ("Original Equipment"). Our aftermarket sales and services are derived from sales of replacement equipment, as well as maintenance, advanced diagnostic, repair and retrofitting services ("Aftermarket"). Each of our two business segments generate Original Equipment and Aftermarket revenues.

On June 30, 2021, the aggregate transaction price allocated to unsatisfied (or partially unsatisfied) performance obligations was approximately \$470 million. We estimate recognition of approximately \$294 million of this amount as revenue in the remainder of 2021 and an additional \$176 million in 2022 and thereafter.

### Contract Balances

We receive payment from customers based on a contractual billing schedule and specific performance requirements as established in our contracts. We record billings as accounts receivable when an unconditional right to consideration exists. A contract asset represents revenue recognized in advance of our right to receive payment under the terms of a contract. A contract liability represents our right to receive payment in advance of revenue recognized for a contract.

The following tables present beginning and ending balances of contract assets and contract liabilities, current and long-term, for the six months ended June 30, 2021 and 2020:

#### 4. Allowance for Expected Credit Losses

The allowance for credit losses is an estimate of the credit losses expected over the life of our financial assets and instruments. We assess and measure expected credit losses on a collective basis when similar risk characteristics exist, including market, geography, credit risk and remaining duration. Financial assets and instruments that do not share risk characteristics are evaluated on an individual basis. Our estimate of the allowance balance is assessed and quantified using internal and external valuation information relating to past events, current conditions and reasonable and supportable forecasts over the contractual terms of an asset.

Our primary exposure to expected credit losses is through our trade receivables and contract assets. For these financial assets, we record an allowance for expected credit losses that, when deducted from the gross asset balance, presents the net amount expected to be collected. Primarily, our experience of historical credit losses provides the basis for our estimation of the allowance. We estimate the allowance based on an aging schedule and according to historical losses as determined from our history of billings and collections. Additionally, we adjust the allowance for factors that are specific to our customers' credit

risk such as financial difficulties, liquidity issues, insolvency, and country and geopolitical risks. We also consider both the current and forecasted macroeconomic conditions as of the reporting date. As identified and needed, we adjust the allowance and recognize adjustments in the income statement each period. Trade receivables are written off against the allowance in the period when the receivable is deemed to be uncollectible. Subsequent recoveries of previously written off amounts are reflected as a reduction to credit impairment losses in the condensed consolidated statements of income.

Contract assets represent a conditional right to consideration for satisfied performance obligations that become a receivable when the conditions are satisfied. Generally, contract assets are recorded when contractual billing schedules differ from revenue recognition based on timing and are managed through the revenue recognition process. Based on our historical credit loss experience, the current expected credit loss for contract assets is estimated to be approximately 1% of the asset balance.

The following table presents the changes in the allowance for expected credit losses for our trade receivables and contract assets for the six months ended June 30, 2021 and 2020:

(Amounts in thousands)	<b>Trade receivables</b>	<b>Contract assets</b>

Our allowance on long-term receivables, included in other assets, net, represent receivables with collection periods longer than 12 months and the balance primarily consists of reserved receivables associated with the national oil company in Venezuela. The following table presents the changes in the allowance for long-term receivables for the six months ended June 30, 2021 and 2020:

(Amounts in thousands)	<b>2021</b>	<b>2020</b>

We also have exposure to credit losses from off-balance sheet exposures, such as financial guarantees and standby letters of credit, where we believe the risk of loss is immaterial to our financial statements as of June 30, 2021.

## 5. Stock-Based Compensation Plans

We maintain the Flowserve Corporation 2020 Long-Term Incentive Plan ("2020 Plan"), which is a shareholder approved plan authorizing the issuance of 12,500,000 shares of our common stock in the form of restricted shares, restricted share units and performance-based units (collectively referred to as "Restricted Shares"), incentive stock options, non-statutory stock options, stock appreciation rights and bonus stock. Of the shares of common stock authorized under the 2020 Plan, 11,273,436 were available for issuance as of June 30, 2021. Restricted Shares primarily vest over a three year period. Restricted Shares granted to employees who retire and have achieved at least 55 years of age and 10 years of service continue to vest over the original vesting period ("55/10 Provision"). As of June 30, 2021, 114,943 stock options were outstanding. No stock options were granted or vested during the six months ended June 30, 2021 and 2020.

*Restricted Shares* – Awards of Restricted Shares are valued at the closing market price of our common stock on the date of grant. The unearned compensation is amortized to compensation expense over the vesting period of the restricted shares, except for awards related to the 55/10 Provision which are expensed in the period granted. We had unearned compensation of \$38.1 million and \$18.7 million at June 30, 2021 and December 31, 2020, respectively, which is expected to be recognized over a remaining weighted-average period of approximately two years. These amounts will be recognized into net earnings in prospective periods as the awards vest. The total fair value of Restricted Shares vested during the three months ended June 30, 2021 and 2020 was \$0.9 million and \$2.9 million, respectively. The total fair value of Restricted Shares vested during the six months ended June 30, 2021 and 2020 was \$24.4 million and \$21.0 million, respectively.

We recorded stock-based compensation expense of \$5.1 million (\$6.7 million pre-tax) and \$3.3 million (\$4.2 million pre-tax) for the three months ended June 30, 2021 and 2020, respectively. We recorded stock-based compensation expense of \$12.7 million (\$16.5 million pre-tax) and \$14.4 million (\$18.5 million pre-tax) for the six months ended June 30, 2021 and 2020, respectively.

The following table summarizes information regarding Restricted Shares:

	<b>Six Months Ended June 30, 2021</b>	
	<b>Shares</b>	<b>Weighted Average Grant-Date Fair Value</b>
<b>Number of unvested shares:</b>		
Outstanding - January 1, 2021	1,373,657	\$ 46.76
Granted	995,204	39.59
Vested	(550,370)	44.27
Forfeited	(117,090)	48.01
Outstanding as of June 30, 2021	<u>1,701,401</u>	<u>\$ 43.29</u>

Unvested Restricted Shares outstanding as of June 30, 2021 included approximately 509,000 units with performance-based vesting provisions issuable in common stock and vest upon the achievement of pre-defined performance metrics. Targets for outstanding performance awards are based on our average return on invested capital, total shareholder return ("TSR") or free cash flow as a percent of net income over a three-year period. Performance units issued in 2021 include a secondary measure, relative total shareholder return, which can increase or decrease the number of vesting units by 15% depending on the Company's performance versus peers. Performance units issued in 2019 and 2020 have a vesting percentage between 0% and 200%, while the 2021 performance units have a vesting percentage up to 230%. Compensation expense is recognized ratably over a cliff-vesting period of 36 months, based on the fair value of our common stock on the date of grant, adjusted for actual forfeitures. During the performance period, earned and unearned compensation expense is adjusted based on changes in the expected achievement of the performance targets for all performance-based units granted except for the TSR-based units. Vesting provisions range from 0 to approximately 1,063,000 shares based on performance targets. As of June 30, 2021, we estimate vesting of approximately 480,000 shares based on expected achievement of performance targets.

## 6. Derivative Instruments and Hedges

Our risk management and foreign currency derivatives and hedging policy specifies the conditions under which we may enter into derivative contracts. See Notes 1 and 9 to our consolidated financial statements included in our 2020 Annual Report and Note 8 of this Quarterly Report for additional information on our derivatives. We enter into foreign exchange forward contracts to hedge our cash flow risks associated with transactions denominated in currencies other than the local currency of the operation engaging in the transaction.

Foreign exchange contracts with third parties had a notional value of \$385.7 million and \$388.1 million at June 30, 2021 and December 31, 2020, respectively. At June 30, 2021, the length of foreign exchange contracts currently in place ranged from 26 days to 27 months.

We are exposed to risk from credit-related losses resulting from nonperformance by counterparties to our financial instruments. We perform credit evaluations of our counterparties under foreign exchange contracts agreements and expect all counterparties to meet their obligations. We have not experienced credit losses from our counterparties.

The fair values of foreign exchange contracts are summarized below:

(Amounts in thousands)	June 30, 2021	December 31, 2020
Current derivative assets	\$ 1,389	\$ 2,857
Noncurrent derivative assets	20	249
Current derivative liabilities	914	682
Noncurrent derivative liabilities	62	—

Current and noncurrent derivative assets are reported in our condensed consolidated balance sheets in prepaid expenses and other and other assets, net, respectively. Current and noncurrent derivative liabilities are reported in our condensed consolidated balance sheets in accrued liabilities and retirement obligations and other liabilities, respectively.

The impact of net changes in the fair values of foreign exchange contracts are summarized below:

(Amounts in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
(Losses) gains recognized in income	\$ (4,312)	\$ (3,520)	\$ 1,793	\$ (61)

Gains and losses recognized in our condensed consolidated statements of income for foreign exchange contracts are classified as other income (expense), net.

As a means of managing the volatility of foreign currency exposure with the Euro/U.S. dollar exchange rate, we enter into cross-currency swaps agreements ("Swaps") as a hedge of our Euro investment in certain of our international subsidiaries. Accordingly, on April 14, 2021 and March 9, 2021, we entered into cross currency swap agreements, with termination dates of October 1, 2030 and an early termination date of March 11, 2025, respectively. Also, during the third quarter of 2020 we entered into a cross currency swap agreement with an early termination date of September 22, 2025. The swap agreements are designated as net investment hedges and as of June 30, 2021 the combined notional value of these swaps was €423.2 million. The swaps are included in retirement obligations and other liabilities in our condensed consolidated balance sheet as of June 30, 2021, with a fair value of \$5.3 million, compared to \$18.1 million as of December 31, 2020. The swaps are classified as Level II under the fair value hierarchy.

We exclude the interest accruals on the swaps from the assessment of hedge effectiveness and recognize the interest accruals in earnings within interest expense. For each reporting period, the change in the fair value of the swaps attributable to changes in the spot rate and differences between the change in the fair value of the excluded components and the amounts recognized in earnings under the swap accrual process are reported in accumulated other comprehensive loss on our consolidated balance sheet. For the three and six months ending June 30, 2021, an interest accrual of \$(2.1) million and \$(2.7) million, respectively, was recognized in other income (expense), net, in our condensed consolidated statements of income.

The cumulative net investment hedge loss, net of deferred taxes, under cross-currency swaps recorded in accumulated other comprehensive loss ("AOCL") on our condensed consolidated balance sheet are summarized below:

(Amounts in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Loss (gain)-included component (1)	\$ 1,798	\$ —	\$ 185	\$ —
(Gain) loss-excluded component (2)	(11,749)	—	3,890	—
(Gain) loss recognized in AOCL	\$ (9,951)	\$ —	\$ 4,075	\$ —

(1) Change in the fair value of the swaps attributable to changes in spot rates.

(2) Change in the fair value of the swaps due to changes other than those attributable to spot rates.

In March 2015, we designated €255.7 million of our 1.25% EUR 2022 Senior Notes ("2022 Euro Senior Notes") discussed in Note 7 as a net investment hedge of our Euro investment in certain of our international subsidiaries. On September 22, 2020, we increased the designated hedged value on the 2022 Euro Senior Notes to €336.3 million, which reflected the remaining balance of the 2022 Euro Senior Notes. For each reporting period, the change in the carrying value due to the remeasurement of the effective portion is reported in AOCL on our condensed consolidated balance sheet and the remaining change in the

carrying value of the ineffective portion, if any, is recognized in other income (expense), net in our condensed consolidated statements of income. As a result of the redemption of our 2022 Euro Senior Notes discussed in Note 7, in February and March of 2021 we dedesignated the hedged value of our net investment hedge.

Prior to the dedesignation, the cumulative impact recorded in AOCL on our condensed consolidated balance sheet from the change in carrying value due to the remeasurement of the effective portion of the net investment hedge are summarized below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
	(Amounts in thousands)			
Loss recognized in AOCL	\$ —	\$ 3,990	\$ 29,554	\$ 12,510

Prior to the dedesignation of the net investment hedge, we used the spot method to measure the effectiveness of both net investment hedges and evaluate the effectiveness on a prospective basis at the beginning of each quarter. We did not record any ineffectiveness during the three and six months ended June 30, 2021 and 2020, respectively.

## 7. Debt

Debt, including finance lease obligations, net of discounts and debt issuance costs, consisted of:

(Amounts in thousands, except percentages)	June 30, 2021	December 31, 2020

Less amounts due within one year	9,599	8,995
Total debt due after one year	\$ 1,307,149	\$ 1,717,911

## Senior Notes

On March 19, 2021, we redeemed the remaining \$400.9 million of our 2022 Euro Senior Notes and have recorded a loss on early extinguishment of \$7.6 million, which included the impact of a \$6.6 million make-whole premium. During the third quarter of 2020 we tendered \$191.4 million of our 2022 Euro Senior Notes and recorded a loss on early extinguishment of \$1.2 million in interest expense.

## Senior Credit Facility

On September 4, 2020, we amended our credit agreement with Bank of America, N.A., as administrative agent, and the other lenders party thereto ("Amended Credit Agreement") to provide greater flexibility in maintaining adequate liquidity in the event we have the need to access available borrowings under our Senior Credit Facility ("Credit Facility"). The Amended Credit Agreement provides for an \$800.0 million unsecured senior credit facility with a maturity date of July 16, 2024. The Credit Facility includes a \$750.0 million sublimit for the issuance of letters of credit and a \$30.0 million sublimit for swing line loans. We have the right to increase the amount of the Credit Facility by an aggregate amount not to exceed \$400.0 million, subject to certain conditions, including each Lender's approval providing any increase.

The Amended Credit Agreement, among other things, (i) replaces the existing leverage ratio financial covenant (the "Existing Leverage Covenant") with a leverage ratio financial covenant that requires the Company's ratio of consolidated funded indebtedness, minus the amount of all cash and cash equivalents on our balance sheet in excess of \$250.0 million, to the Company's Consolidated EBITDA, not to exceed 4.00 to 1.00 as of the last day of any quarter through and including December

31, 2021 (the "Covenant Relief Period"), (ii) amends the Existing Leverage Covenant to provide that it will not be tested until the quarter ending March 31, 2022, (iii) provides that the Existing Leverage Covenant, beginning March 31, 2022, cannot exceed 4.00 to 1.00 (or as increased to 4.50 to 1.00 in connection with certain acquisitions) and (iv) limits the Company's ability to pay dividends and repurchase its shares of common stock, par value \$1.25, during the Covenant Relief Period, to an amount not to exceed 115% of the total amount of dividends and share repurchases we made during the period commencing January 1, 2019 through and including June 30, 2020.

The interest rates per annum applicable to the Senior Credit Facility, other than with respect to swing line loans, are LIBOR plus between 1.000% to 1.750%, depending on our debt rating by either Moody's Investors Service, Inc. or Standard & Poor's Financial Services LLC ("S&P") Ratings, or, at our option, the Base Rate (as defined in the Credit Agreement) plus between 0.000% to 0.750% depending on our debt rating by either Moody's Investors Service, Inc. or S&P Ratings. At June 30, 2021, the interest rate on the Senior Credit Facility was LIBOR plus 1.375% in the case of LIBOR loans and the Base Rate plus 0.375% in the case of Base Rate loans. In addition, a commitment fee is payable quarterly in arrears on the daily unused portions of the Credit Facility. The commitment fee will be between 0.090% and 0.300% of unused amounts under the Credit Facility depending on our debt rating by either Moody's Investors Service, Inc. or S&P's Ratings. The commitment fee was 0.20% (per annum) during the three and six months ended June 30, 2021.

As of June 30, 2021 and December 31, 2020, we had no revolving loans outstanding. We had outstanding letters of credit of \$61.1 million and \$58.1 million at June 30, 2021 and December 31, 2020, respectively. As of June 30, 2021, the amount available for borrowings under our Senior Credit Facility was \$738.9 million, compared to \$741.9 million at December 31, 2020.

Our compliance with applicable financial covenants under the Senior Notes and Credit Facility are tested quarterly. We were in compliance with all applicable covenants as of June 30, 2021.

## **8. Fair Value**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models may be applied. Assets and liabilities recorded at fair value in our condensed consolidated balance sheets are categorized by hierarchical levels based upon the level of judgment associated with the inputs used to measure their fair values. Recurring fair value measurements are limited to investments in derivative instruments. The fair value measurements of our derivative instruments are determined using models that maximize the use of the observable market inputs including interest rate curves and both forward and spot prices for currencies, and are classified as Level II under the fair value hierarchy. The fair values of our derivatives are included in Note 6.

The carrying value of our financial instruments as reflected in our condensed consolidated balance sheets approximates fair value, with the exception of our long-term debt. The estimated fair value of our long-term debt, excluding the Senior Notes, approximates the carrying value and is classified as Level II under the fair value hierarchy. The carrying value of our debt is included in Note 7. The estimated fair value of our Senior Notes at June 30, 2021 was \$1,356.4 million compared to the carrying value of \$1,292.1 million. The estimated fair value of the Senior Notes is based on Level I quoted market rates. The carrying amounts of our other financial instruments (e.g., cash and cash equivalents, accounts receivable, net, accounts payable and short-term debt) approximated fair value due to their short-term nature at June 30, 2021 and December 31, 2020.

## 11. Legal Matters and Contingencies

### Asbestos-Related Claims

We are a defendant in a substantial number of lawsuits that seek to recover damages for personal injury allegedly caused by exposure to asbestos-containing products manufactured and/or distributed by our heritage companies in the past. Typically, these lawsuits have been brought against multiple defendants in state and federal courts. While the overall number of asbestos-related claims in which we or our predecessors have been named has generally declined in recent years, there can be no assurance that this trend will continue, or that the average cost per claim to us will not further increase. Asbestos-containing materials incorporated into any such products were encapsulated and used as internal components of process equipment, and we do not believe that significant emission of asbestos fibers occurred during the use of this equipment.

Our practice is to vigorously contest and resolve these claims, and we have been successful in resolving a majority of claims with little or no payment, other than legal fees. Activity related to asbestos claims during the periods indicated was as follows:

	Three Months Ended		Six Months		Year Ended
	June 30,		June 30,		December 31,
	2021	2020	2021	2020	2020
<b>Beginning claims(1)</b>	8,445	8,282	8,366	8,345	8,345
New claims	603	456	1,232	1,037	2,140
Resolved claims	(479)	(667)	(1,023)	(1,308)	(2,203)
Other(2)	(10)	29	(16)	26	84
<b>Ending claims(1)</b>	<b>8,559</b>	<b>8,100</b>	<b>8,559</b>	<b>8,100</b>	<b>8,366</b>

(1) Beginning and ending claims data in each period excludes inactive claims, as the Company considers it unlikely that inactive cases will be pursued further by the respective plaintiffs. A claim is classified as inactive either due to inactivity over a period of time or if designated as inactive by the applicable court.

(2) Represents the net change in claims as a result of the reclassification of active cases as inactive and inactive cases as active during the period indicated. Cases moved from active to inactive status are removed from the claims count without being accounted for as a "Resolved claim", and cases moved from inactive status to active status are added back to the claims count without being accounted for as a "New claim".

During the three months ended June 30, 2021 the Company incurred expenses (net of insurance) of approximately \$1.8 million, compared to \$5.9 million for the same period in 2020 to defend, resolve or otherwise dispose of outstanding claims, including legal and other related expenses. During the six months ended June 30, 2021 the Company incurred expenses (net of insurance) of approximately \$4.5 million, compared to \$10.2 million for the same period in 2020 to defend, resolve or otherwise dispose of outstanding claims, including legal and other related expenses. These expenses are included within SG&A in our condensed consolidated statements of income.

The Company had cash inflows/(outflows) (net of insurance and/or indemnity) to defend, resolve or otherwise dispose of outstanding claims, including legal and other related expenses of approximately \$(3.3) million and \$(6.7) million during the six months ended June 30, 2021 and 2020, respectively.

Historically, a high percentage of resolved claims have been covered by applicable insurance or indemnities from other companies, and we believe that a substantial majority of existing claims should continue to be covered by insurance or indemnities, in whole or in part.

We believe that our reserve for asbestos claims and the receivable for recoveries from insurance carriers that we have recorded for these claims reflects reasonable and probable estimates of these amounts. Our estimate of our ultimate exposure for asbestos claims, however, is subject to significant uncertainties, including the timing and number and types of new claims, unfavorable court rulings, judgments or settlement terms and ultimate costs to settle. Additionally, the continued viability of carriers may also impact the amount of probable insurance recoveries. We believe that these uncertainties could have a

material adverse impact on our business, financial condition, results of operations and cash flows, though we currently believe the likelihood is remote.

Additionally, we have claims pending against certain insurers that, if resolved more favorably than reflected in the recorded receivables, would result in discrete gains in the applicable quarter.

#### Other Claims

We are also a defendant in a number of other lawsuits, including product liability claims, that are insured, subject to the applicable deductibles, arising in the ordinary course of business, and we are also involved in other uninsured routine litigation incidental to our business. We currently believe none of such litigation, either individually or in the aggregate, is material to our business, operations or overall financial condition. However, litigation is inherently unpredictable, and resolutions or dispositions of claims or lawsuits by settlement or otherwise could have an adverse impact on our financial position, results of operations or cash flows for the reporting period in which any such resolution or disposition occurs.

Although none of the aforementioned potential liabilities can be quantified with absolute certainty except as otherwise indicated above, we have established or adjusted reserves covering exposures relating to contingencies, to the extent believed to be reasonably estimable and probable based on past experience and available facts. While additional exposures beyond these reserves could exist, they currently cannot be estimated. We will continue to evaluate and update the reserves as necessary and appropriate.

## 12. Retirement and Postretirement Benefits

Components of the net periodic cost for retirement and postretirement benefits for the three months ended June 30, 2021 and 2020 were as follows:

(Amounts in millions)	U.S. Defined Benefit Plans		Non-U.S. Defined Benefit Plans		Postretirement Medical Benefits

The components of net periodic cost for retirement and postretirement benefits other than service costs are included in other income (expense), net in our condensed consolidated statements of income.

### 13. Shareholders' Equity

*Dividends* – Generally, our dividend date-of-record is in the last month of the quarter, and the dividend is paid the following month. Any subsequent dividends will be reviewed by our Board of Directors and declared in its discretion.

Dividends declared per share were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Dividends declared per share	\$ 0.20	\$ 0.20	\$ 0.40	\$ 0.40

*Share Repurchase Program* – In 2014, our Board of Directors approved a \$500.0 million share repurchase authorization. Our share repurchase program does not have an expiration date and we reserve the right to limit or terminate the repurchase program at any time without notice.

We repurchased 311,000 shares of our outstanding common stock for \$12.5 million during the three months ended June 30, 2021, compared to no repurchases for the same period in 2020. We repurchased 440,000 shares of our outstanding common stock for \$17.5 million during the six months ended June 30, 2021, compared to 1,057,115 shares repurchases for \$32.1 million for the same period in 2020. As of June 30, 2021, we had \$101.2 million of remaining capacity under our current share repurchase program.

### 14. Income Taxes

For the three months ended June 30, 2021, we earned \$50.5 million before taxes and provided for income taxes of \$2.7 million resulting in an effective tax rate of 5.4%. For the six months ended June 30, 2021, we earned \$71.4 million before taxes and provided for income taxes of \$6.5 million resulting in an effective tax rate of 9.1%. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2021 primarily due to the net impact of foreign operations and favorable resolution of audits in foreign jurisdictions. The effective tax rate varied from the U.S. federal statutory rate for the six months ended June 30, 2021 primarily due to the net impact of foreign operations, the reversal of certain deferred tax liabilities as a result of restructuring specific aspects of our global financing arrangements, higher withholding taxes related to transactions with and amongst various foreign subsidiaries and favorable resolution of audits in foreign jurisdictions.

For the three months ended June 30, 2020, we earned \$12.8 million before taxes and provided for income taxes of \$4.5 million resulting in an effective tax rate of 35.2%. For the six months ended June 30, 2020, we earned \$64.0 million before taxes and provided for income taxes of \$41.5 million resulting in an effective tax rate of 64.8%. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2020 primarily due to the net impact of foreign operations. The effective tax rate varied from the U.S. federal statutory rate for the six months ended June 30, 2020 primarily due to the establishment of a valuation allowance against certain deferred tax assets given the current and anticipated impact to the Company's operations resulting from the COVID-19 pandemic and the distressed oil prices, and the net impact of foreign operations.

In response to the COVID-19 pandemic, many governments have enacted or are contemplating measures to provide aid and economic stimulus. These measures may include deferring the due dates of tax payments or other changes to their income and non-income-based tax laws. The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), which was enacted on March 27, 2020 in the U.S., includes measures to assist companies, including temporary changes to income and non-income-based tax laws. For the three and six months ended June 30, 2021, there were no material tax impacts to our condensed consolidated financial statements as they relate to the CARES Act or any other global COVID-19 measures. We continue to monitor additional guidance issued by the U.S. Treasury Department, the Internal Revenue Service and others.

As of June 30, 2021, the amount of unrecognized tax benefits decreased by \$3.6 million from December 31, 2020. With limited exception, we are no longer subject to U.S. federal income tax audits for years through 2017, state and local income tax audits for years through 2014 or non-U.S. income tax audits for years through 2013. We are currently under examination for various years in Canada, Germany, India, Indonesia, Italy, Malaysia, Mexico, the Philippines, Saudi Arabia, the U.S. and Venezuela.

It is reasonably possible that within the next 12 months the effective tax rate will be impacted by the resolution of some or all of the matters audited by various taxing authorities. It is also reasonably possible that we will have the statute of limitations close in various taxing jurisdictions within the next 12 months. As such, we estimate we could record a reduction in our tax expense of approximately \$13 million within the next 12 months.

## 17. Realignment and Transformation Programs

In the second quarter of 2020, we identified and initiated certain realignment activities resulting from our Flowserve 2.0 Transformation Program (defined below) to right-size our organizational operations based on the current business environment, with the overall objective to reduce our workforce costs, including manufacturing optimization through the consolidation of certain facilities ("2020 Realignment Program"). The realignment activities consist of restructuring and non-restructuring charges. Restructuring charges represent costs associated with the relocation of certain business activities and facility closures and include related severance costs. Non-restructuring charges are primarily employee severance associated with the workforce reductions. Expenses are primarily reported in cost of sales ("COS") or selling, general and administrative ("SG&A"), as applicable, in our condensed consolidated statements of income. We anticipate a total investment in these activities of approximately \$95 million and the majority of the charges were incurred in 2020 with the remainder to be incurred through 2021. There are certain other realignment activities that are currently being evaluated, but have not yet been finalized.

In the second quarter of 2018, we launched and committed resources to our Flowserve 2.0 Transformation ("Flowserve 2.0 Transformation"), a program designed to transform our business model to drive operational excellence, reduce complexity, accelerate growth, improve organizational health and better leverage our existing global platform. The Flowserve 2.0 Transformation expenses incurred primarily consisted of professional services, project management and related travel costs recorded in SG&A expenses. As of December 31, 2020, the Flowserve 2.0 Transformation efforts were substantially completed. For the six months ended June 30, 2021, there were no Flowserve 2.0 Transformation charges.

Generally, the aforementioned charges will be paid in cash, except for asset write-downs, which are non-cash charges. The following is a summary of total charges, net of adjustments, incurred in 2021 related to our 2020 Realignment Program and the total charges incurred in 2020 are related to our 2020 Realignment Program and Flowserve 2.0 Transformation:

Restructuring charges represent costs associated with the relocation or reorganization of certain business activities and facility closures and include costs related to employee severance at closed facilities, contract termination costs, asset write-downs and other costs. Severance costs primarily include costs associated with involuntary termination benefits. Contract termination costs include costs related to the termination of operating leases or other contract termination costs. Asset write-downs include accelerated depreciation of fixed assets, accelerated amortization of intangible assets, divestiture of certain non-strategic assets and inventory write-downs. Other costs generally include costs related to employee relocation, asset relocation, vacant facility costs (i.e., taxes and insurance) and other charges.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and notes thereto, and the other financial data included elsewhere in this Quarterly Report. The following discussion should also be read in conjunction with our audited consolidated financial statements, and notes thereto, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") included in our 2020 Annual Report.

### EXECUTIVE OVERVIEW

#### *Our Company*

We are a world-leading manufacturer and aftermarket service provider of comprehensive flow control systems. We develop and manufacture precision-engineered flow control equipment integral to the movement, control and protection of the flow of materials in our customers' critical processes. Our product portfolio of pumps, valves, seals, automation and aftermarket services supports global infrastructure industries, including oil and gas, chemical, power generation and water management, as well as general industrial markets where our products and services add value. Through our manufacturing platform and global network of Quick Response Centers ("QRCs"), we offer a broad array of aftermarket equipment services, such as installation, advanced diagnostics, repair and retrofitting. We currently employ approximately 15,000 employees in more than 50 countries.

Our business model is significantly influenced by the capital and operating spending of global infrastructure industries for the placement of new products into service and aftermarket services for existing operations. The worldwide installed base of our products is an important source of aftermarket revenue, where products are expected to ensure the maximum operating time of many key industrial processes. We have significantly invested in our aftermarket strategy to provide local support to drive customer investments in our offerings and use of our services to replace or repair installed products. The aftermarket portion of our business also helps provide business stability during various economic periods. The aftermarket service and solutions business, which is primarily served by our network of 162 QRCs located around the globe, provides a variety of service offerings for our customers including spare parts, service solutions, product life cycle solutions and other value-added services. It is generally a higher margin business compared to our original equipment business and a key component of our business strategy.

Our operations are conducted through two business segments that are referenced throughout this MD&A:

- Flowserve Pump Division ("FPD") designs and manufactures custom, highly-engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, auxiliary systems and replacement parts and related services; and
- Flow Control Division ("FCD") designs, manufactures and distributes a broad portfolio of engineered-to-order and configured-to-order isolation valves, control valves, valve automation products and related equipment.

Our business segments share a focus on industrial flow control technology and have a number of common customers. These segments also have complementary product offerings and technologies that are often combined in applications that provide us a net competitive advantage. Our segments also benefit from our global footprint and our economies of scale in reducing administrative and overhead costs to serve customers more cost effectively. For example, our segments share leadership for operational support functions, such as sales, research and development, marketing and supply chain.

The reputation of our product portfolio is built on more than 50 well-respected brand names such as Worthington, IDP, Valtek, Limitorque, Durco, Argus, Edward, Valbart and Durametallc, which we believe to be one of the most comprehensive in the industry. Our products and services are sold either directly or through designated channels to more than 10,000 companies, including some of the world's leading engineering, procurement and construction ("EPC") firms, original equipment manufacturers, distributors and end users.

We continue to leverage our QRC network to be positioned as near to customers as possible for service and support in order to capture valuable aftermarket business. Along with maintaining the local capability to sell, install and service our equipment in remote regions, it is equally imperative to continuously improve our global operations. Despite headwinds caused by the COVID-19 pandemic, we continue to enhance our global supply chain capabilities to continue to increase our ability to meet global customer demands and improve the quality and timely delivery of our products over the long-term. Additionally, we continue to devote resources to improve the supply chain processes across our business segments and find areas of synergy and cost reduction, all along improving our supply chain management capability to meet global customer demands. We also remain focused on improving on-time delivery and quality, while managing warranty costs as a percentage of sales across our global operations, through the assistance of a focused Continuous Improvement Process ("CIP") initiative. The goal of the CIP initiative, which includes lean manufacturing, six sigma business management strategy and value engineering, is to maximize service fulfillment to customers through on-time delivery, reduced cycle time and quality at the highest internal productivity.

#### ***COVID-19 Update***

Our cross-functional crisis management team established during the first quarter of 2020 has continued monitoring and making recommendations to management to help us continue operating as an essential business, while also protecting the health and safety of our associates. We expect that widespread implications of the pandemic worldwide will continue to cause substantial economic uncertainty and challenging operational conditions throughout 2021. We continue to actively monitor the impacts of the COVID-19 pandemic on all aspects of our business and geographies.

While we cannot reasonably estimate with certainty the duration and severity of the COVID-19 pandemic or its ultimate impact on the global economy, our business or our financial condition and results, we nonetheless remain committed to providing the critical support, products and services that our customers rely on, and currently believe that we will emerge from these events well positioned for long-term growth.

#### ***Health and Safety of Our Associates***

The health and safety of our associates, suppliers and customers around the world continues to be a priority as we navigate the COVID-19 pandemic, including recent spikes in cases of the virus and its variants in various geographies in which we operate. We are incredibly proud of the great teamwork exhibited by our global workforce who have demonstrated strong resilience in adapting to continually evolving health and safety guidelines while addressing these challenging times and providing products and services to our customers.

At the beginning of the pandemic we implemented policies and practices to help protect our workforce so they can safely and effectively carry out their vital work, and we have continued to revise those policies and practices in light of guidance received from local and regional health authorities where appropriate. In those locations where employees are going to work in our facilities, including our global headquarters in Irving, Texas, which began a phased reopening during the second quarter of 2021, we continue taking steps, consistent with guidelines from local and global health experts to protect our employees so that we can continue operations and manufacture critical technologies and equipment, including providing face coverings and other personal protective equipment, enhanced cleaning of sites and implemented social distancing protocols.

Our employees and facilities have a key role in keeping essential infrastructure and industries operating, including oil and gas, water, chemical, power generation and other essential industries, such as food and beverage and healthcare. While some of

our facilities have experienced periods of temporary closures in accordance with decrees, orders and laws in their respective countries and geographies, many of which occurred at the onset of the pandemic, as of August 5, 2021, all of our facilities are open and operational, and are running close to pre-COVID-19 levels as we continue to make essential products and provide services for our customers. While the measures described above, combined with continued employee costs and under-absorption of manufacturing costs as a result of temporary closures and work-from-home policies, have had and are expected to continue having an adverse impact on our financial performance throughout the remainder of the pandemic, we have seen these adverse impacts begin to decline as the roll out of vaccines has improved around the world, and we expect a further decline of these adverse impacts and as we navigate further through the pandemic in 2021.

#### Customer Demand

During the first six months of 2021, the ongoing effects of the COVID-19 pandemic in global markets has continued to adversely impact our customers, particularly in the oil and gas markets. As a result of the pandemic's effect (among certain other effects) on oil prices during 2020, many of our large customers reduced capital expenditures and budgets last year. To date, while we have seen some modest improvement, customer spending has yet to return to pre-pandemic levels. As a result, while bookings in the first six months of 2021 continued to be lower than pre-pandemic levels, we saw an overall increase in bookings of 6.3% in the first six months of 2021 as compared to the same period in 2020.

While we expect that many of the repair and maintenance projects that were paused by our customers last year as a result of the pandemic will ultimately need to be completed, the timing will largely depend on the duration of the COVID-19 pandemic and how the virus continues to spread in our customers' various geographies. While we have seen some recovery in capital expenditure budgets and, therefore, our bookings, during the first half of 2021, we do not expect planned capital spending to approach pre-pandemic levels in 2021.

#### Supply Chain Impact

Since the onset of the pandemic, many of our suppliers have also experienced varying lengths of production and shipping delays related to the COVID-19 pandemic, some of which continue to exist in highly affected countries. These conditions have had an adverse effect on the speed at which we can manufacture and ship our products to customers, and have also led to an increase in logistics, transportation and freight costs, requiring that we diversify our supply chain and, in some instances, source materials from new suppliers. Additionally, these conditions have in some cases impacted our ability to deliver products to customers on time, which has in turn led to an increase in backlog at some of our manufacturing sites. Though some of these issues have abated as the pandemic has progressed, certain disruptions in our supply chain and their effects have continued and we expect they will continue as the COVID-19 pandemic continues.

#### Operational Impacts

We continue to engage in a number of cost savings measures in order to help mitigate certain of the adverse effects of the COVID-19 pandemic on our financial results, including certain realignment activities (further described below under "—RESULTS OF OPERATIONS – Three and six months ended June 30, 2021 and 2020"), reductions in capital expenditures and continued cuts in other discretionary spending due to our response to the effects of COVID-19, which partially offsets the continued costs and operational impacts of the safety protocols and procedures that we have implemented and sustained as described above under the heading "Health and Safety of Our Associates." We continue to evaluate additional cost savings measures in order to reduce the impact of the COVID-19 pandemic on our financial results.

We continually monitor and assess the spread of COVID-19 and known variants, including in areas that have seen recent increases in cases, and we will continue to adapt our operations to respond the changing conditions as needed. As we continue to manage our business through this unprecedented time of uncertainty and market volatility, we will remain focused on the health and safety of our associates, suppliers, customers, and will continue to provide essential products and services to our customers.

#### 2021 Outlook

As of June 30, 2021, we had approximately \$1.4 billion of liquidity, consisting of cash and cash equivalents of \$630.4 million and \$738.9 million of borrowings available under our Senior Credit Facility. We will continue to actively monitor the potential impacts of COVID-19 and related events on the credit markets in order to maintain sufficient liquidity and access to capital throughout 2021. As the world continues to make progress against COVID-19 largely through increased vaccinations, we have begun to see an inflection in our served end-markets as commodity prices and mobility levels increase. As such, we expect full-year bookings in 2021 to increase over 10% compared to 2020 levels.

**RESULTS OF OPERATIONS — Three months ended June 30, 2021 and 2020**

Throughout this discussion of our results of operations, we discuss the impact of fluctuations in foreign currency exchange rates. We have calculated currency effects on operations by translating current year results on a monthly basis at prior year exchange rates for the same periods.

During the first quarter of 2021, as previously disclosed, we identified an accounting error involving foreign currency transactions beginning with the first quarter of 2020 through the year ended December 31, 2020. These adjustments increased retirement obligations and other liabilities by \$1.5 million, retained earnings by \$14.0 million and accumulated other comprehensive loss by \$15.5 million as of December 31, 2020.

In addition, as previously disclosed, during the third quarter of 2020, we identified accounting errors related to the recognition of a liability for unasserted asbestos claims. The adjustments primarily related to an incurred but not reported ("IBNR") liability associated with unasserted asbestos claims, but also included adjustments related to the associated receivables for expected insurance proceeds for asbestos settlement and defense costs from insurance coverage and the recognition as an expense the related legal fees that were previously estimated to be recoverable from insurance carriers for which coverage is not currently sufficient following the recognition of the IBNR for periods beginning with the year ended December 31, 2014 through the second quarter of 2020 and to correct certain other previously identified immaterial errors.

We have assessed the above described errors, individually and in the aggregate, and concluded they were not material to the period ended June 30, 2020 or any previous period. The June 30, 2020, balances, as presented herein, have been revised. Additionally, the remaining periods in 2020 will be revised the next time such financial statements are filed as applicable. Refer to Note 2 for a detailed discussion related to the impact of the revision as of and for the three and six months ended June 30, 2020 and the impact to future periods in 2020 which will be revised in future filings.

In the second quarter of 2018, we launched and committed resources to our Flowserve 2.0 Transformation, a program designed to transform our business model to drive operational excellence, reduce complexity, accelerate growth, improve organizational health and better leverage our existing global platform, which is further discussed in Note 17 to our condensed consolidated financial statements included in this Quarterly Report. The Flowserve 2.0 Transformation expenses incurred primarily consist of professional services, project management and related travel costs recorded in SG&A expenses. As of December 31, 2020, the Flowserve 2.0 Transformation efforts were substantially complete.

In the second quarter of 2020, we identified and initiated certain realignment activities resulting from our Flowserve 2.0 Transformation Program to right-size our organizational operations based on the current business environment, with the overall objective to reduce our workforce costs. We anticipate a total investment in 2020 Realignment Program activities of approximately \$95 million and the majority of the charges were incurred in 2020 with the remainder to be incurred through the remainder of 2021. Based on the actions initiated with the 2020 Realignment Program, we estimate that we have achieved cost savings of approximately \$49 million for the six months ended June 30, 2021, with approximately \$25 million of those savings in COS and approximately \$24 million in SG&A. Upon completion of the 2020 Realignment Program activities, we expect full year run-rate cost savings of approximately \$125 million. Actual savings could vary from expected savings, which represent management's best estimate to date. There are certain other realignment activities that are currently being evaluated, but have not yet been finalized.

**Realignment Activity**

The following tables present our realignment activity by segment related to our 2020 Realignment Program. For the three and six months ended June 30, 2021, the total charges incurred are related to our 2020 Realignment Program and there were no Flowserve 2.0 Transformation charges. For the three and six months ended June 30, 2020, the total charges incurred are related to our 2020 Realignment Program and Flowserve 2.0 Transformation:

We define a booking as the receipt of a customer order that contractually engages us to perform activities on behalf of our customer with regard to manufacturing, service or support. Bookings recorded and subsequently canceled within the year-to-date period are excluded from year-to-date bookings. Bookings for the three months ended June 30, 2021 increased by \$144.5 million, or 17.9%, as compared with the same period in 2020. The increase included currency benefits of approximately \$39 million. The increase was primarily driven by increased customer bookings in the oil and gas, chemical, water and power generation industries. The increase in customer bookings was driven by both original equipment and aftermarket bookings.

Bookings for the six months ended June 30, 2021 increased by \$113.2 million, or 6.3%, as compared with the same period in 2020. The increase included currency benefits of approximately \$65 million. The increase was driven by increased customer bookings in the chemical, water, general and oil and gas industries and were partially offset by decreased bookings in the power generation industry. The increase in customer bookings was primarily driven by original equipment and to a lesser extent aftermarket bookings.

Sales for the three months ended June 30, 2021 decreased by \$26.8 million, or 2.9%, as compared with the same period in 2020. The decrease included currency benefits of approximately \$39 million. The decreased sales were driven by original equipment, with decreased sales into North America, the Middle East and Africa, partially offset by increased sales into Asia Pacific, Europe and Latin America. Net sales to international customers, including export sales from the U.S., were approximately 66% and 64% of total sales for the three months ended June 30, 2021 and 2020, respectively.

Sales for the six months ended June 30, 2021 decreased by \$63.0 million, or 3.5%, as compared with the same period in 2020. The decrease included currency benefits of approximately \$66 million. The decreased sales were driven by original equipment, with decreased sales into North America, the Middle East and Africa, partially offset by increased sales into Asia Pacific, Europe and Latin America. Net sales to international customers, including export sales from the U.S., were approximately 67% and 63% of total sales for the three months ended June 30, 2021 and 2020, respectively.

Backlog represents the aggregate value of booked but uncompleted customer orders and is influenced primarily by bookings, sales, cancellations and currency effects. Backlog of \$1,949.5 million at June 30, 2021 increased by \$94.6 million, or 5.1%, as compared with December 31, 2020. Currency effects provided a decrease of approximately \$29 million. Approximately 37% and 33% of the backlog at June 30, 2021 and December 31, 2020, respectively, was related to aftermarket orders. Backlog includes our unsatisfied (or partially unsatisfied) performance obligations related to contracts having an original expected duration in excess of one year of approximately \$470 million, as discussed in Note 3 to our condensed consolidated financial statements included in this Quarterly Report.

	<b>2021</b>	<b>2020</b>
Gross profit	\$ 529.1	\$ 536.2
Gross profit margin	30.1 %	29.5 %

Gross profit for the three months ended June 30, 2021 increased by \$8.5 million, or 3.2%, as compared with the same period in 2020. Gross profit margin for the three months ended June 30, 2021 of 31.0% increased from 29.2% for the same period in 2020. The increase in gross profit margin was primarily due to a \$6.6 million charge of underutilized capacity manufacturing costs expensed related to the COVID-19 pandemic that did not recur, a mix shift to higher margin aftermarket sales and decreased realignment charges and increased savings associated with our realignment actions as compared to the same period in 2020, partially offset by revenue recognized on lower margin original equipment orders. Aftermarket sales represented approximately 52% of total sales, as compared with approximately 50% of total sales for the same period in 2020.

Gross profit for the six months ended June 30, 2021 decreased by \$7.1 million, or 1.3%, as compared with the same period in 2020. Gross profit margin for the six months ended June 30, 2021 of 30.1% increased from 29.5% for the same period in 2020. The increase in gross profit margin was primarily due to a \$15.0 million charge of underutilized capacity manufacturing costs expensed related to the COVID-19 pandemic in 2020 that did not recur, a mix shift to higher margin aftermarket sales and decreased charges and increased savings related to our realignment actions as compared to the same period in 2020, partially offset by revenue recognized on lower margin original equipment orders. Aftermarket sales represented approximately 52% of total sales, as compared with approximately 50% of total sales for the same period in 2020.

SG&A for the three months ended June 30, 2021 decreased by \$18.5 million, or 8.1%, as compared with the same period in 2020. Currency effects yielded an increase of approximately \$6 million. SG&A as a percentage of sales for the three months ended June 30, 2021 decreased 130 basis points primarily due to decreased charges and increased savings related to our realignment actions, partially offset by increased broad-based annual incentive compensation compared with the same period in 2020.

SG&A for the six months ended June 30, 2021 decreased by \$65.7 million, or 13.8%, as compared with the same period in 2020. Currency effects yielded an increase of approximately \$11 million. SG&A as a percentage of sales for the six months ended June 30, 2021 decreased 280 basis points primarily due to decreased charges and increased savings related to our realignment actions, decreased travel-related expenses and lower bad debt expense, partially offset by increased broad-based annual incentive compensation as compared with the same period in 2020.

Operating income for the three months ended June 30, 2021 increased by \$28.7 million, or 66.0%, as compared with the same period in 2020. The increase included currency benefits of approximately \$6 million. The increase was primarily a result of the \$18.5 million decrease in SG&A and by the \$8.5 million increase in gross profit.

Operating income for the six months ended June 30, 2021 increased by \$60.6 million, or 89.5%, as compared with the same period in 2020. The increase included currency benefits of approximately \$7 million. The increase was primarily a result of the \$65.7 million decrease in SG&A, partially offset by the \$7 million decrease in gross profit.

Interest expense	\$ (31.1)	\$ (25.9)
Interest income	1.1	2.9

Interest expense for the three months ended June 30, 2021 increased \$1.4 million, as compared with the same period in 2020. Interest income for the three months ended June 30, 2021 decreased \$0.7 million, as compared with the same period in 2020. The increase in interest expense was primarily attributable to interest expense associated with the senior notes issued in the third quarter of 2020. The decrease in interest income was partially due to lower interest rates on our average cash balances compared with same period in 2020.

Interest expense for the six months ended June 30, 2021 increased \$5.2 million, as compared with the same period in 2020. Interest income for the six months ended June 30, 2021 decreased \$1.8 million, as compared with the same period in 2020. The increase in interest expense was primarily attributable to interest expense associated with the senior notes issued in the third quarter of 2020. The decrease in interest income was partially due to lower interest rates on our average cash balances compared with same period in 2020.

Other income (expense), net	\$ (19.2)	\$ 19.3

Other income (expense), net for the three months ended June 30, 2021 decreased \$11.0 million as compared with the same period in 2020, due primarily to an \$14.6 million decrease in losses from transactions in currencies other than our sites' functional currencies, partially offset by a \$0.8 million increase in losses arising from transactions on foreign exchange contracts. The net change was primarily due to the foreign currency exchange rate movements in the Mexican peso, Brazilian real, Canadian dollar and Singapore dollar in relation to the U.S. dollar during the three months ended June 30, 2021, as compared with the same period in 2020.

Other income (expense), net for the six months ended June 30, 2021 decreased \$38.5 million as compared with the same period in 2020, due primarily to an \$37.9 million increase in losses from transactions in currencies other than our sites' functional currencies, partially offset by a \$1.9 million increase in gains arising from transactions on foreign exchange contracts. The net change was primarily due to the foreign currency exchange rate movements in the Canadian dollar, Mexican peso, Euro and Brazilian real in relation to the U.S. dollar during the six months ended June 30, 2021, as compared with the same period in 2020.

#### Tax Expense and Tax Rate

	2021	2020
Provision for income taxes	\$ 6.5	\$ 41.5
Effective tax rate	9.1 %	64.8 %

The effective tax rate of 5.4% for the three months ended June 30, 2021 decreased from 35.2% for the same period in 2020. The effective tax rate varied from the U.S. federal statutory rate for the three months ended June 30, 2021 primarily due to the net impact of foreign operations and favorable resolution of audits in foreign jurisdictions. Refer to Note 14 to our condensed consolidated financial statements included in this Quarterly Report for further discussion.

The effective tax rate of 9.1% for the six months ended June 30, 2021 decreased from 64.8% for the same period in 2020. The effective tax rate varied from the U.S. federal statutory rate for the six months ended June 30, 2021 primarily due to the net impact of foreign operations, favorable resolution of audits in foreign jurisdictions, the reversal of certain deferred tax liabilities as a result of restructuring specific aspects of our global financing arrangements, higher withholding taxes related to transactions with and amongst various foreign subsidiaries and favorable resolution of audits in foreign jurisdictions. Refer to Note 14 to our condensed consolidated financial statements included in this Quarterly Report for further discussion.

Other comprehensive income (loss)	\$ 9.6	\$ (68.8)

Other comprehensive income for the three months ended June 30, 2021 decreased \$4.8 million from income of \$20.9 million in 2020. The decreased income was primarily due to foreign currency translation adjustments resulting primarily from exchange rate movements of the Euro, Colombian peso, Indian rupee and British pound versus the U.S. dollar during the three months ended June 30, 2021, as compared with the same period in 2020.

Other comprehensive income for the six months ended June 30, 2021 increased \$78.4 million from a loss of \$68.8 million in 2020. The increased income was primarily due to foreign currency translation adjustments resulting primarily from

exchange rate movements of the Euro, Brazilian real, Mexican peso and Indian rupee versus the U.S. dollar during the three months ended June 30, 2021, as compared with the same period in 2020.

## Business Segments

We conduct our operations through two business segments based on the type of product and how we manage the business. We evaluate segment performance and allocate resources based on each segment's operating income. The key operating results for our two business segments, FPD and FCD, are discussed below.

### Flowsolve Pump Division Segment Results

Our largest business segment is FPD, through which we design, manufacture, distribute and service highly custom engineered pumps, pre-configured industrial pumps, pump systems, mechanical seals, and auxiliary systems (collectively referred to as "original equipment") and related services. FPD primarily operates in the oil and gas, power generation, chemical and general industries. FPD operates in 48 countries with 39 manufacturing facilities worldwide, 13 of which are located in Europe, 12 in North America, eight in Asia and six in Latin America, and it operates 136 QRCs, including those co-located in manufacturing facilities and/or shared with FCD.

Bookings for the three months ended June 30, 2021 increased by \$132.3 million, or 24.7%, as compared with the same period in 2020. The increase included currency benefits of approximately \$29 million. The increase in customer bookings was driven by increased orders in the oil and gas, chemical, and water industries and were partially offset by decreased bookings in the general industry. Customer bookings increased \$46.6 million into North America, \$39.3 million into the Middle East, \$22.3 million into Europe, \$16.8 million into Latin America and \$13.9 million into Africa and were partially offset by decreased bookings of \$3.6 million into Asia Pacific. The increase was more heavily weighted towards aftermarket bookings.

Bookings for the six months ended June 30, 2021 increased by \$102.1 million, or 8.4%, as compared with the same period in 2020. The increase included currency benefits of approximately \$46 million. The increase in customer bookings was driven by increased orders in the chemical, oil and gas and water industries and were partially offset by decreased bookings in the power generation industry. Customer bookings increased \$42.6 million into North America, \$30.1 million into Latin America, \$29.3 million into the Middle East and \$22.3 million into Europe and were partially offset by decreased bookings of \$51.1 million into Asia Pacific. The increase was more heavily weighted towards aftermarket bookings.

Sales for the three months ended June 30, 2021 decreased by \$56.6 million, or 8.4% as compared with the same period in 2020 and included currency benefits of approximately \$27 million. The decrease was driven by customer original equipment sales. Decreased customer sales of \$26.1 million into North America, \$17.2 million into the Middle East, \$10.0 million into Africa and \$9.0 million into Asia Pacific were partially offset by increased sales of \$5.3 million into Latin America.

Sales for the six months ended June 30, 2021 decreased by \$89.6 million, or 6.8% as compared with the same period in 2020 and included currency benefits of approximately \$45 million. The decrease was driven by customer original equipment sales. Decreased customer sales of \$69.8 million into North America, \$34.3 million into the Middle East and \$7.5 million into Africa were partially offset by increased sales of \$13.6 million into Europe, \$5.2 million into Latin America and \$3.3 million into Asia Pacific.

Gross profit for the three months ended June 30, 2021 decreased by \$1.5 million, or 0.8%, as compared with the same period in 2020. Gross profit margin for the three months ended June 30, 2021 of 31.8% increased from 29.4% for the same period in 2020. The increase in gross profit margin was primarily attributable to decreased charges and increased savings under our realignment actions as compared to the same period in 2020, a \$3.3 million charge of underutilized capacity manufacturing costs expensed related to the COVID-19 pandemic in 2020 that did not recur and a mix shift to higher margin aftermarket sales.

Gross profit for the six months ended June 30, 2021 decreased by \$14.5 million, or 3.7%, as compared with the same period in 2020. Gross profit margin for the six months ended June 30, 2021 of 31.1% increased from 30.1% for the same period in 2020. The increase in gross profit margin was primarily attributable to decreased charges and increased savings under our realignment actions as compared to the same period in 2020, a \$9.2 million charge of underutilized capacity manufacturing costs expensed related to the COVID-19 pandemic in 2020 that did not recur and a mix shift to higher margin aftermarket sales.

SG&A for the three months ended June 30, 2021 decreased by \$7.0 million, or 5.0%, as compared with the same period in 2020. Currency effects provided an increase of approximately \$5 million. The decrease in SG&A was primarily due to decreased charges and increased savings under our realignment actions as compared to the same period in 2020.

SG&A for the six months ended June 30, 2021 decreased by \$33.7 million, or 11.2%, as compared with the same period in 2020. Currency effects provided an increase of approximately \$8 million. The decrease in SG&A was primarily due to a decrease in travel, administrative and selling-related expenses, lower bad debt expense and decreased charges and increased savings under our realignment actions as compared to the same period in 2020.

Operating income for the three months ended June 30, 2021 increased by \$7.4 million, or 12.3%, as compared with the same period in 2020. The increase included currency benefits of approximately \$5 million. The increase was primarily due to the \$7.0 million decrease in SG&A partially offset by the \$1.5 million decrease in gross profit.

Operating income for the six months ended June 30, 2021 increased by \$21.5 million, or 21.5%, as compared with the same period in 2020. The increase included currency benefits of approximately \$6 million. The increase was primarily due to the \$33.7 million decrease in SG&A partially offset by the \$14.5 million decrease in gross profit.

Backlog of \$1,294.1 million at June 30, 2021 increased by \$57.2 million, or 4.6%, as compared with December 31, 2020. Currency effects provided a decrease of approximately \$22 million.

### ***Flow Control Division Segment Results***

FCD designs, manufactures and distributes a broad portfolio of engineered-to-order and configured-to-order isolation valves, control valves, valve automation products and related equipment. FCD leverages its experience and application know-how by offering a complete menu of engineered services to complement its expansive product portfolio. FCD has a total of 46 manufacturing facilities and QRCs in 22 countries around the world, with five of its 19 manufacturing operations located in the U.S., eight located in Europe, five located in Asia Pacific and one located in Latin America. Based on independent industry sources, we believe that FCD is the second largest industrial valve supplier on a global basis.

Bookings for the three months ended June 30, 2021 increased by \$14.5 million, or 5.3%, as compared with the same period in 2020. Bookings included currency benefits of approximately \$10 million. The increase in customer bookings was primarily driven by increased orders in the general, power generation and chemical industries, partially offset by decreased bookings in the oil and gas industry. Increase customers bookings of \$36.2 million into North America and \$12.3 million into Europe were partially offset by decreased bookings of \$26.8 million into Asia Pacific, \$5.2 million into the Middle East, \$2.4 million into Latin America and \$1.4 million into Africa. The increase was primarily driven by both customer original equipment and aftermarket bookings.

Bookings for the six months ended June 30, 2021 increased by \$11.8 million, or 2.1%, as compared with the same period in 2020. Bookings included currency benefits of approximately \$19 million. The increase in customer bookings was primarily driven by increased orders in the chemical, power generation and general industries, partially offset by decreased orders in the the oil and gas industry. Increase customers bookings of \$26.2 million into North America and \$1.9 million into Asia Pacific were partially offset by decreased bookings of \$12.9 million into the Middle East and \$3.2 million into Latin America. The increase was driven by customer original equipment bookings.

Sales for the three months ended June 30, 2021 increased \$28.9 million, or 11.5%, as compared with the same period in 2020. The increase included currency benefits of approximately \$12 million. Increased sales were driven by both original equipment and aftermarket sales. The increase was primarily driven by increased customer sales of \$24.5 million into Asia Pacific, \$6.7 million into Europe, \$3.9 million into the Middle East and \$2.0 million into Latin America, partially offset by decreased sales of \$8.6 million into North America.

Sales for the six months ended June 30, 2021 increased \$25.3 million, or 4.9%, as compared with the same period in 2020. The increase included currency benefits of approximately \$21 million. Increased sales were driven by both original equipment and aftermarket sales. The increase was primarily driven by increased customer sales of \$48.0 million into Asia Pacific, \$10.1 million into Europe, \$6.4 million into the Middle East and \$3.3 million into Latin America, partially offset by decreased sales of \$41.1 million into North America.

Gross profit for the three months ended June 30, 2021 increased by \$8.6 million, or 11.3%, as compared with the same period in 2020. Gross profit margin for the three months ended June 30, 2021 of 30.2% remained consistent with the 30.2% for the same period in 2020. The increase in gross profit margin was primarily attributable to a \$3.4 million charge of underutilized capacity manufacturing costs expensed related to the COVID-19 pandemic that did not recur and decreased charges and increased savings under our realignment actions, completely offset by revenue recognized on lower margin original equipment orders as compared to the same period in 2020.

Gross profit for the six months ended June 30, 2021 increased by \$8.4 million, or 5.6%, as compared with the same period in 2020. Gross profit margin for the six months ended June 30, 2021 of 29.7% increased from 29.5% for the same period in 2020. The increase in gross profit margin was primarily attributable to a \$5.8 million charge of underutilized capacity

manufacturing costs expensed related to the COVID-19 pandemic that did not recur and decreased charges and increased savings under our realignment actions, substantially offset by revenue recognized on lower margin original equipment orders as compared to the same period in 2020.

SG&A for the three months ended June 30, 2021 decreased by \$2.0 million, or 4.0%, as compared with the same period in 2020. Currency effects provided an increase of approximately \$2 million. The decrease in SG&A was primarily due to decreased charges and increased savings related to our realignment actions, partially offset by increased selling-related expenses as compared to the same period in 2020.

SG&A for the six months ended June 30, 2021 decreased by \$10 million, or 9.1%, as compared with the same period in 2020. Currency effects provided an increase of approximately \$3 million. The decrease in SG&A was primarily due to decreased charges and increased savings related to our realignment actions, partially offset by increased selling-related expenses as compared to the same period in 2020.

Operating income for the three months ended June 30, 2021 increased by \$11.0 million, or 42.0%, as compared with the same period in 2020. The increase included currency benefits of approximately \$1 million. The increase was primarily due to the \$8.6 million increase in gross profit and the \$2.0 million decrease in SG&A.

Operating income for the six months ended June 30, 2021 increased by \$19 million, or 42.6%, as compared with the same period in 2020. The increase included currency benefits of approximately \$2 million. The increase was primarily due to the \$8.4 million increase in gross profit and the \$9.8 million decrease in SG&A.

Backlog of \$660.4 million at June 30, 2021 increased by \$37.3 million, or 6.0%, as compared with December 31, 2020. Currency effects provided a decrease of approximately \$6 million.

## LIQUIDITY AND CAPITAL RESOURCES

### Cash Flow and Liquidity Analysis

(Amounts in millions)	Six Months Ended June 30,	
	2021	2020
Net cash flows provided (used) by operating activities	\$ 61.3	\$ 20.2
Net cash flows provided (used) by investing activities	(23.8)	(18.3)
Net cash flows provided (used) by financing activities	(491.1)	(93.7)

Existing cash, cash generated by operations and borrowings available under our Senior Credit Facility are our primary sources of short-term liquidity. We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions. Our sources of operating cash generally include the sale of our products and services and the conversion of our working capital, particularly accounts receivable and inventories. Our cash balance at June 30, 2021 was \$630.4 million, as compared with \$1,095.3 million at December 31, 2020.

Our cash balance decreased by \$464.9 million to \$630.4 million at June 30, 2021, as compared with December 31, 2020. The cash activity during the first six months of 2021 included the \$407.5 million redemption of our 2022 Euro Senior Notes, \$52.2 million in dividend payments, \$22.5 million in capital expenditures and \$17.5 million of share repurchases, partially offset by cash provided by operating activities.

For the six months ended June 30, 2021, our cash provided by operating activities was \$61.3 million, as compared to \$20.2 million for the same period in 2020. Cash flow provided from working capital increased for the six months ended June 30, 2021, due primarily to decreased cash flows used or increased cash flows provided by contract assets, contract liabilities and inventories, partially offset by increased cash flows used or decreased cash flows provided by accounts payable and accounts receivable compared to the same period in 2020.

Decreases in accounts receivable provided \$14.3 million of cash flow for the six months ended June 30, 2021, as compared to \$0.9 million for the same period in 2020. As of June 30, 2021, our days' sales outstanding ("DSO") was 73 days as compared with 74 days as of June 30, 2020.

Decreases in contract assets provided \$12.2 million of cash flow for the six months ended June 30, 2021, as compared with cash flows used of \$44.3 million for the same period in 2020.

Increases in inventory used \$30.8 million and \$36.6 million of cash flow for the six months ended June 30, 2021 and June 30, 2020, respectively. Inventory turns were 3.6 times at June 30, 2021, as compared to 3.8 as of June 30, 2020.

Decreases in accounts payable used \$41.1 million of cash flow for the six months ended June 30, 2021, as compared with \$9.2 million for the same period in 2020. Decreases in accrued liabilities and income taxes payable used \$37.1 million of cash flow for the six months ended June 30, 2021, as compared with \$1.1 million for the same period in 2020.

Increases in contract liabilities provided \$17.0 million of cash flow for the six months ended June 30, 2021, as compared to \$4.4 million for the same period in 2020.

Cash flows used by investing activities during the six months ended June 30, 2021 were \$23.8 million, as compared to \$18.3 million for the same period in 2020. Capital expenditures during the six months ended June 30, 2021 were \$22.5 million, a decrease of \$6.5 million as compared with the same period in 2020. Our capital expenditures are generally focused on strategic initiatives to pursue information technology infrastructure, ongoing scheduled replacements and upgrades and cost reduction opportunities. In 2021, we currently estimate capital expenditures to be between \$70 million and \$80 million, before consideration of any acquisition activity. In addition, proceeds received during the six months ended June 30, 2021 from disposal of assets provided \$2.1 million, primarily from the 2020 sale of non-strategic manufacturing facilities that were included in our Realignment Programs. Proceeds received during the first six months of 2020 included \$10.8 million from the disposal of assets, primarily due to the 2019 sale of non-strategic manufacturing facilities that were included in Realignment Programs.

Cash flows used by financing activities during the six months ended June 30, 2021 were \$491.1 million, as compared to \$93.7 million for the same period in 2020. Cash outflows during the six months ended June 30, 2021 resulted primarily from a \$407.5 million payment on long-term debt resulting from the redemption of our 2022 Euro Senior Notes, \$52.2 million of dividend payments and the repurchase of \$17.5 million of common shares.

As of June 30, 2021, we had an available capacity of \$738.9 million on our Senior Credit Facility, which provides for a \$800.0 million unsecured revolving credit facility with a maturity date of July 16, 2024. Our borrowing capacity is subject to financial covenant limitations based on the terms of our Senior Credit Facility and is also reduced by outstanding letters of credit. Our Senior Credit Facility is committed and held by a diversified group of financial institutions. Refer to Note 7 to our condensed consolidated financial statements included in this Quarterly Report for additional information concerning our Senior Credit Facility.

During the six months ended June 30, 2021 we made no cash contributions to our U.S. pension plan. At December 31, 2020 our U.S. pension plan was fully funded as defined by applicable law. After consideration of our funded status, we currently anticipate making \$20 million in contributions to our U.S. pension plan in 2021, excluding direct benefits paid. We continue to maintain an asset allocation consistent with our strategy to maximize total return, while reducing portfolio risks through asset class diversification.

Considering our current debt structure and cash needs, we currently believe cash flows generated from operating activities combined with availability under our Senior Credit Facility and our existing cash balance will be sufficient to meet our cash needs for the next 12 months. Cash flows from operations could be adversely affected by economic, political and other risks associated with sales of our products, operational factors, competition, fluctuations in foreign exchange rates and fluctuations in interest rates, among other factors. See "COVID-19 Liquidity Update" and "Cautionary Note Regarding Forward-Looking Statements" below.

As of June 30, 2021, we have \$101.2 million of remaining capacity for Board of Directors approved share repurchases. While we currently intend to continue to return cash through dividends and/or share repurchases for the foreseeable future, any future returns of cash through dividends and/or share repurchases will be reviewed individually, declared by our Board of Directors at its discretion and implemented by management.

## **Financing**

### ***Credit Facilities***

See Note 7 to our condensed consolidated financial statements included in this Quarterly Report for a discussion of our Senior Credit Facility and related covenants. We were in compliance with all applicable covenants under our Senior Credit Facility as of June 30, 2021.

### ***COVID-19 Liquidity Update***

As of June 30, 2021, we had approximately \$1.4 billion of liquidity, consisting of cash and cash equivalents of \$630.4 million and \$738.9 million of borrowings available under our Senior Credit Facility. In light of the liquidity currently available to us, and the costs savings measures planned and already in place, we expect to be able to maintain adequate liquidity over the next 12 months as we manage through the current market environment. We will continue to actively monitor the potential impacts of COVID-19 and related events on the credit markets in order to maintain sufficient liquidity and access to capital throughout 2021.

## **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's discussion and analysis of financial condition and results of operations are based on our condensed consolidated financial statements and related footnotes contained within this Quarterly Report. Our critical accounting policies used in the preparation of our condensed consolidated financial statements were discussed in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2020 Annual Report. The critical policies, for which no significant changes have occurred in the six months ended June 30, 2021, include:

- Revenue Recognition;
- Deferred Taxes, Tax Valuation Allowances and Tax Reserves;
- Reserves for Contingent Loss;
- Retirement and Postretirement Benefits; and
- Valuation of Goodwill, Indefinite-Lived Intangible Assets and Other Long-Lived Assets.

The process of preparing condensed consolidated financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions to determine certain of the assets, liabilities, revenues and expenses. These estimates and assumptions are based upon what we believe is the best information available at the time of the estimates or assumptions. The estimates and assumptions could change materially as conditions within and beyond our control change. Accordingly, actual results could differ materially from those estimates. The significant estimates are reviewed quarterly with the Audit Committee of our Board of Directors.

Based on an assessment of our accounting policies and the underlying judgments and uncertainties affecting the application of those policies, we believe that our condensed consolidated financial statements provide a meaningful and fair perspective of our consolidated financial condition and results of operations. This is not to suggest that other general risk factors, such as changes in worldwide demand, changes in material costs, performance of acquired businesses and others, could not adversely impact our consolidated financial condition, results of operations and cash flows in future periods. See "Cautionary Note Regarding Forward-Looking Statements" below.

## **ACCOUNTING DEVELOPMENTS**

We have presented the information about pronouncements not yet implemented in Note 1 to our condensed consolidated financial statements included in this Quarterly Report.

### **Cautionary Note Regarding Forward-Looking Statements**

This Quarterly Report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Words or phrases such as, "may," "should," "expects," "could," "intends," "plans," "anticipates," "estimates," "believes," "predicts" or other similar expressions are intended to identify forward-looking statements, which include, without limitation, statements concerning our future financial performance, future debt and financing levels, investment objectives, implications of litigation and regulatory investigations and other management plans for future operations and performance.

The forward-looking statements included in this Quarterly Report are based on our current expectations, projections, estimates and assumptions. These statements are only predictions, not guarantees. Such forward-looking statements are subject to numerous risks and uncertainties that are difficult to predict. These risks and uncertainties may cause actual results to differ

materially from what is forecast in such forward-looking statements and are currently, or in the future could be, amplified by the COVID-19 pandemic. Specific factors that might cause such a difference include, without limitation, the following:

- uncertainties related to the impact of the COVID-19 pandemic on our business and operations, financial results and financial position, our customers and suppliers, and on the global economy, including its impact on our sales;
- a portion of our bookings may not lead to completed sales, and our ability to convert bookings into revenues at acceptable profit margins;
- changes in the global financial markets and the availability of capital and the potential for unexpected cancellations or delays of customer orders in our reported backlog;
- our dependence on our customers' ability to make required capital investment and maintenance expenditures. The liquidity and financial position of our customers could impact capital investment decisions and their ability to pay in full and/or on a timely basis;
- if we are not able to successfully execute and realize the expected financial benefits from our strategic transformation, realignment and other cost-saving initiatives, our business could be adversely affected;

- risks associated with cost overruns on fixed fee projects and in accepting customer orders for large complex custom engineered products;
- the substantial dependence of our sales on the success of the oil and gas, chemical, power generation and water management industries;
- the adverse impact of volatile raw materials prices on our products and operating margins;
- economic, political and other risks associated with our international operations, including military actions, trade embargoes or changes to tariffs or trade agreements that could affect customer markets, particularly North African, Russian and Middle Eastern markets and global oil and gas producers, and non-compliance with U.S. export/reexport control, foreign corrupt practice laws, economic sanctions and import laws and regulations;
- increased aging and slower collection of receivables, particularly in Latin America and other emerging markets;
- our exposure to fluctuations in foreign currency exchange rates, particularly the Euro and British pound and in hyperinflationary countries such as Venezuela and Argentina;
- our furnishing of products and services to nuclear power plant facilities and other critical applications;
- potential adverse consequences resulting from litigation to which we are a party, such as litigation involving asbestos-containing material claims;
- expectations regarding acquisitions and the integration of acquired businesses;
- our relative geographical profitability and its impact on our utilization of deferred tax assets, including foreign tax credits;
- the potential adverse impact of an impairment in the carrying value of goodwill or other intangible assets;
- our dependence upon third-party suppliers whose failure to perform timely could adversely affect our business operations;
- the highly competitive nature of the markets in which we operate;
- environmental compliance costs and liabilities;
- potential work stoppages and other labor matters;
- access to public and private sources of debt financing;
- our inability to protect our intellectual property in the U.S., as well as in foreign countries;
- obligations under our defined benefit pension plans;
- our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud;
- the recording of increased deferred tax asset valuation allowances in the future or the impact of tax law changes on such deferred tax assets could affect our operating results;
- risks and potential liabilities associated with cyber security threats; and
- ineffective internal controls could impact the accuracy and timely reporting of our business and financial results.

These and other risks and uncertainties are more fully discussed in the risk factors identified in "Item 1A. Risk Factors" in Part I of our 2020 Annual Report and Part II of this Quarterly Report, and may be identified in our Quarterly Reports on Form 10-Q and our other filings with the SEC and/or press releases from time to time. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any forward-looking statement.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

We have market risk exposure arising from changes in foreign currency exchange rate movements in foreign exchange contracts. We are exposed to credit-related losses in the event of non-performance by counterparties to financial instruments, but we currently expect our counterparties will continue to meet their obligations given their current creditworthiness.

#### **LIBOR**

On March 5, 2021, the UK Financial Conduct Authority ("FCA"), which regulates the London Interbank Offered Rate ("LIBOR") issued an announcement on the future cessation or loss of representativeness of LIBOR benchmark settings currently published by ICE Benchmark Administration. That announcement confirmed that LIBOR will either cease to be provided by any administrator or will no longer be representative after December 31, 2021 for all non-USD LIBOR reference rates, and for 1-Week and 2-Month USD LIBOR and after June 30, 2023 for other USD LIBOR reference rates. The U.S. Federal Reserve, in conjunction with the Alternative Reference Rate Committee, has proposed the replacement of U.S. dollar LIBOR rates with a new index calculated by short-term repurchase agreements backed by U.S. Treasury securities called the Secured Overnight Financing Rate ("SOFR"). Whether or not SOFR is generally accepted as the LIBOR replacement remains in question and the future of LIBOR at this time is uncertain. The Company's current Senior

Credit Facility agreement includes a provision for the determination of a successor LIBOR rate when appropriate by reference to the then-prevailing market convention for determining an interest rate for syndicated loans in the United States, subject to a right of the lenders thereunder to reject the application of the determined rate by written notice. While we will work with our administrative agent to incorporate a successor reference rate, there can be no assurances as to what alternative reference rates may be and whether such rates will be more or less favorable than LIBOR and any other unforeseen impacts of the potential discontinuation of LIBOR.

### **Foreign Currency Exchange Rate Risk**

A substantial portion of our operations are conducted by our subsidiaries outside of the U.S. in currencies other than the U.S. dollar. Almost all of our non-U.S. subsidiaries conduct their business primarily in their local currencies, which are also their functional currencies. Foreign currency exposures arise from translation of foreign-denominated assets and liabilities into

U.S. dollars and from transactions, including firm commitments and anticipated transactions, denominated in a currency other than our or a non-U.S. subsidiary's functional currency. As a means of managing the volatility of foreign currency exposure with the Euro/U.S. dollar exchange rate, we entered into three swap agreements associated with our Euro investment in certain of our international subsidiaries. The swap agreements are designated as a net investment hedges and as of June 30, 2021, the notional value of the swaps agreements was €423.20 million. Routinely, we review our investments in foreign subsidiaries from a long-term perspective and use capital structuring techniques to manage our investment in foreign subsidiaries as deemed necessary. For further discussion related to these swap agreements refer to Note 6 to our condensed consolidated financial statements included in this Quarterly Report. We recognized net gains (losses) associated with foreign currency translation of \$14.0 million and \$19.0 million for the three months ended June 30, 2021 and 2020, respectively, and \$3.1 million and \$(77.0) million for the six months ended June 30, 2021 and 2020, respectively, which are included in other comprehensive income (loss).

We employ a foreign currency risk management strategy to minimize potential changes in cash flows from unfavorable foreign currency exchange rate movements. Where available, the use of foreign exchange contracts allows us to mitigate transactional exposure to exchange rate fluctuations as the gains or losses incurred on the foreign exchange contracts will offset, in whole or in part, losses or gains on the underlying foreign currency exposure. As of June 30, 2021, we had a U.S. dollar equivalent of \$385.7 million in aggregate notional amount outstanding in foreign exchange contracts with third parties, as compared with \$388.1 million at December 31, 2020. Transactional currency gains and losses arising from transactions outside of our sites' functional currencies and changes in fair value of non-designated foreign exchange contracts are included in our consolidated results of operations. We recognized foreign currency net (losses) gains of \$(4.2) million and \$(18.0) million for the three months ended June 30, 2021 and 2020, respectively, and \$(13.7) million and \$22.4 million for the six months ended June 30, 2021 and 2020, respectively, which are included in other income (expense), net in the accompanying condensed consolidated statements of income.

Based on a sensitivity analysis at June 30, 2021, a 10% change in the foreign currency exchange rates for the six months ended June 30, 2021 would have impacted our net earnings by approximately \$11 million. This calculation assumes that all currencies change in the same direction and proportion relative to the U.S. dollar and that there are no indirect effects, such as changes in non-U.S. dollar sales volumes or prices. This calculation does not take into account the impact of the foreign currency exchange contracts discussed above.

## **Item 4. Controls and Procedures.**

### **Disclosure Controls and Procedures**

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) are controls and other procedures that are designed to ensure that the information that we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the preparation of this Quarterly Report, our management, under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2021. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2021.

### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended June 30, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II — OTHER INFORMATION

### Item 1. Legal Proceedings.

We are party to the legal proceedings that are described in Note 11 to our condensed consolidated financial statements included in "Item 1. Financial Statements" of this Quarterly Report, and such disclosure is incorporated by reference into this "Item 1. Legal Proceedings." In addition to the foregoing, we and our subsidiaries are named defendants in certain other ordinary routine lawsuits incidental to our business and are involved from time to time as parties to governmental proceedings, all arising in the ordinary course of business. Although the outcome of lawsuits or other proceedings involving us and our subsidiaries cannot be predicted with certainty, and the amount of any liability that could arise with respect to such lawsuits or other proceedings cannot be predicted accurately, management does not currently expect the amount of any liability that could arise with respect to these matters, either individually or in the aggregate, to have a material adverse effect on our financial position, results of operations or cash flows.

### Item 1A. Risk Factors.

There are numerous factors that affect our business, financial condition, results of operations, cash flows, reputation and/or prospects, many of which are beyond our control. In addition to other information set forth in this Quarterly Report, careful consideration should be given to "Item 1A. Risk Factors" in Part I and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II of our 2020 Annual Report, which contain descriptions of significant factors that might cause the actual results of operations in future periods to differ materially from those currently projected in the forward-looking statements contained therein.

There have been no material changes in risk factors discussed in our 2020 Annual Report and subsequent SEC filings. The risks described in this Quarterly Report filed for the period ended June 30, 2021, our 2020 Annual Report and in our other SEC filings or press releases from time to time are not the only risks we face. Additional risks and uncertainties are currently deemed immaterial based on management's assessment of currently available information, which remains subject to change; however, new risks that are currently unknown to us may surface in the future that materially adversely affect our business, financial condition, results of operations or cash flows.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Note 13 to our condensed consolidated financial statements included in this Quarterly Report includes a discussion of our share repurchase program and payment of quarterly dividends on our common stock.

During the quarter ended June 30, 2021, we repurchased 311,000 for \$12.5 million (representing an average cost of \$40.03 per share). As of June 30, 2021, we have \$101.2 million of remaining capacity under our current share repurchase program. The following table sets forth the activity for each of the three months during the quarter ended June 30, 2021:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program (1)	Maximum Number of Shares (or Approximate Dollar Value) of Shares That May Be Purchased Under the Program (in millions)
April 1 - 30	244,530	(2) \$ 39.78	244,000	\$ 103
May 1 -31	71,835	(3) 41.05	67,000	101
June 1 - 30	1,353	(4) 42.66	—	101
Total	<u>317,718</u>	<u>\$ 40.08</u>	<u>311,000</u>	

- (1) On November 13, 2014, our Board of Directors approved a \$500.0 million share repurchase authorization. Our share repurchase program does not have an expiration date, and we reserve the right to limit or terminate the repurchase program at any time without notice.
- (2) Includes 530 shares that were tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares at an average price per share of \$40.02.
- (3) Includes 3,290 shares that were tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares at an average price per share of \$42.93 and 1,545 shares purchased at a price of \$41.32 per share by a rabbi trust that we established in connection with our director deferral plans, pursuant to which non-employee directors may elect to defer directors' quarterly cash compensation to be paid at a later date in the form of common stock.
- (4) Represents shares that were tendered by employees to satisfy minimum tax withholding amounts for Restricted Shares.
